## SUMMARY

---

Team-oriented Full-Stack Developer with strong **Data Structures & Algorithms** foundation and hands-on experience in **React, Node.js, and Python**. Proficient in **Git & version control**, problem solving, and collaborative workflows. Passionate about learning industry-standard development practices, Agile methodology, and mentorship from senior developers. Seeking an internship to contribute to real-world software projects while further developing technical and professional skills.

## EDUCATION

---

**Khulna University of Engineering & Technology (KUET)** *Expected 2026*  
B.Sc. in Computer Science and Engineering (CSE) 4th Year

## EXPERIENCE

---

**Frontend Developer Intern** *Jul 2023 – Oct 2023*  
KuchToh Technologies Pvt. Ltd. (Remote)

- Completed a 2.5-month internship as a frontend developer.
- Recognized as creative, hardworking, and a fast learner.
- Contributed to frontend development tasks and UI improvements.
- Worked in a collaborative environment with real development workflows.

## PROJECTS

---

**Battery Manager - AI Backend & ML Pipeline** *Jan 2026 – Apr 2026*

- FastAPI backend with PostgreSQL/TimescaleDB for telemetry ingestion.
- ML models: XGBoost (RUL), Isolation Forest (anomaly), K-Means (clustering), LSTM (TTE).
- Deployed on Render with CI/CD, REST APIs for predictions and advice.
- Collaborated with teammate (Dart frontend) for end-to-end mobile app.
- 🌐 Live Demo | 🐙 GitHub

**DrinkPanda** (Full-stack e-commerce) *Jul 2025 – Oct 2025*  
Online juice-selling platform.

- **React (Next.js)** for frontend, **Laravel** backend, MySQL database.
- Built admin panel for product management.
- Used **Git & GitHub** for version control.
- 🌐 Live Demo | 🐙 GitHub

### Full-stack Todo App

- Backend with **NestJS (Node.js framework)** + MongoDB.
- REST API design and integration.
- 🌐 Live Demo | 🐙 GitHub

### React Movie App

- **React, Redux**, SCSS, JavaScript. Third-party API integration.
- 🌐 Live Demo | 🐙 GitHub

## EVOGYM – TypeScript React Fitness App

- **React, TypeScript**, Tailwind CSS.
-  Live Demo |  GitHub

## B-Worm - Book Exchange Platform

- Java 21, Spring Boot, Spring Security, Thymeleaf, PostgreSQL, Docker.
- Team collaboration with branch protection, code reviews, and CI/CD pipeline.
- Containerized with Docker Compose for local dev and production deployment.
-  GitHub |  Live Demo

## ACHIEVEMENTS

---

- ICPC Dhaka Regionalist, 2025

## SKILLS

---

- **Data Structures & Algorithms:** Strong problem-solving foundation
- **Frontend:** React.js, Next.js, Redux, TypeScript, Tailwind, HTML5/CSS3
- **Backend:** Node.js (Express, NestJS), Python, Laravel (PHP)
- **Databases:** MongoDB, MySQL
- **Version Control:** Git & GitHub
- **Others:** REST API integration, responsive design, Agile workflows, team collaboration
